

What are One-to-one Consent Leads?

When a consumer fills out an online form and give consent to be contacted by your brand, they are matched exclusively with your brand and expect your outreach.

This means no other brands can contact the consumer without their consent.

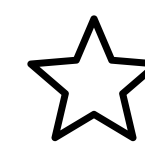

Why choose one-to-one consent leads- they perform **2-2.5x better than regular digital leads.**

Higher intent

Higher contact rates

Exclusive opportunity

Higher returns

Sign up on PX Local now and start receiving your first leads in minutes.
